The Kitchen Community:

The Kitchen Community (TKC), a 501(C)(3) nonprofit, was established as the philanthropic arm of The Kitchen restaurants to connect kids to real food by creating Learning Gardens in schools & community organizations across America. A Learning Garden is an easy, affordable, scalable, attractive outdoor classroom, designed as an extension of the playground. It is a permanent investment in school infrastructure that creates an experiential learning & play space with edible vegetables. Learning Gardens teach children an understanding of food, healthy eating, lifestyle choices & environmental stewardship through lesson plans & activities that tie into existing school curriculum such as math, science & literacy.

Cesar E. Chávez Multicultural Academic Center:

Cesar E. Chávez Multicultural Academic Center strives to be the focal point of their community in Chicago's Back of the Yards neighborhood. Of the 928 students enrolled during the 2011-2012 school year, 98.7% come from low income families. Chávez Multicultural Academic Center works in cooperation with the community to improve education for the advancement of children.
